Generally speaking, engine size is an indicator of machine power and weight, so stick with engine sizes between 50cc and 110cc

for smaller children, 125cc to 150cc for most kids and no more than 200cc to 300cc for bigger teens. Of course, this is a very general recommendation.

Shopping for Chinese ATV Parts or Chinese Scooter Parts is a bit different than shopping for parts for a domestic or Japanese machine, for a couple of reasons. First, most Chinese machines are assembled with aftermarket parts; there are no OEM parts. Because Chinese machines are assembled with parts from a variety of manufacturers for the same application, even in the same model and model year ...
