You can search and download free books in categories like scientific, engineering, programming, fiction and many other books. No registration is required to download free e-books.

3406b Cat Engine Valve Adjustment

When you are on number 1 compression stroke, you adjust the intake valves on cylinders 1,2, and 4. Then adjust the exhaust valves 1, 3, and 5. Then rotate the engine 360 degrees and adjust the intake valves 3, 5, and 6. And the exhaust 2, 4, and 6. Let me know if you need more help.

What is the order of adjusting the valves on a cat 3406b motor

3406B Valve Adjustment So I have a 3406B old school mechanical in our 97 Kenworth. I just finished the injectors because the guy before me put the wrong ones in. Anyways I need to adjust the valves and I cannot find the info I need for the life of me.

3406B Valve Adjustment - Caterpillar Inc.

I did a valve adjustment on my 3406b my clearance seems to be way out. Does anyone have a website I can visit to give me the allowed clearance. I think they are supposed to be at .015 which is what I put them at. Across the board they were .030 out and the #1 and #5 were out to .050.
