The Code on Access to Information provides a formal framework for access to information held by government departments. It defines the scope of information that will be provided, sets out how the information will be made available either routinely or in response to request, lays down procedures governing its release, as well as procedures for review or complaint.

Code on Access to Information - Home

Freedom of Information (FOI) can be defined as the right to access information held by public bodies. It is an integral part of the fundamental right of freedom of expression, as recognized by Resolution 59 of the UN General Assembly adopted in 1946, as well as by Article 19 of the Universal Declaration of Human Rights (1948), which states that the fundamental right of freedom of expression ...

Freedom of Information | United Nations Educational ...

The right to universal access to information goes much wider than public health though, as it is a key plank of a country's human rights record. Laws are not just about guaranteeing access to information, but provide the necessary accountability which should apply to governments, courts, the police, and other authorities which make critical decisions on behalf of people.

Why Universal Access to Information Matters - Creative Commons

Access to information gives you the right by law to access facts and data concerning the exercise of any public authority, as well as on the use of any public funds. It often occurs through Right to Information laws (ROI).

Right to information - Our priorities - Transparency.org

Access to information is basic to the democratic way of life. The tendency to withhold information from the people at large is therefore to be strongly checked. These quotations highlight the importance of freedom of information at a number of different levels: in itself, for the fulfilment of all other rights and as an underpinning of democracy.
