LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

I purchased the Denon,AVR 681 as part of a home theatre package that included six denon speakers. Inshort order I replaced the Denon speakers with klipsch speakers whic made a world of difference in the overall audio quality. The unit is hooked up to a Sony Wega and has worked very well. However, after nine months of use, the AVR 681 broke down.
