DORA's research identified four key metrics that indicate the performance of a software development team. Use our Four Keys open source project to gather and display this key DevOps performance data from your GitHub or GitLab repos. Measure your software delivery performance, and track it over time.

What is DevOps? Research and Solutions | Google Cloud

As a result, most organisations use DORA to get a top-level overview but then turn to others, like BlueOptima, to drill down deeper and identify the specific ways to improve productivity. BlueOptima helps companies take their DORA assessment a step further by conducting strategic analysis and gathering insights at a root level.

How To Measure DevOps Success: Why DORA Metrics Are Important

DORA's research provides insight into software development and DevOps practices applied in industry, backed by scientific studies spanning six years with over 31,000 survey responses from working professionals. This year, almost 1,000² individuals from a range of industries around the world added their voices to the 2019 Report. Overall,

The 1993 Pacific hurricane season was a slightly above-average Pacific hurricane season with seven named storms directly impacting land. The season officially started on May 15 in the eastern Pacific, and on June 1 in the central Pacific, and ended on November 30; these dates conventionally delimit the period during which most tropical cyclones form in the northeastern Pacific Ocean.
