Good Nikon Manual Focus Lens

This manual focus lens outperforms its newer 85mm f/1.4 D autofocus sibling. In fact, its so good that even after the f/1.4 autofocus lens came out, for about the about the same price, Nikon kept making these for 10 more years! It's sharper than the new AF lens, and it has much better bokeh than most other Nikon

But my first Nikon manual focus lens, about which I initiated another thread on this subject, the 105 f/2.5 AI-s, launched me into this new world. Today I picked up my EIGHTH manual focus lens produced by Nikon from a lovely Japanese gentleman I met through craigslist. He'd just bought a digital camera and was excited about shooting with AF lenses.
