Language Testing And Assessment Encyclopedia

A test or examination (exam or evaluation) is an educational assessment intended to measure a test-taker's knowledge, skill, aptitude, physical fitness, or classification in many other topics (e.g., beliefs). A test may be administered verbally, on paper, on a computer, or in a predetermined area that requires a test taker to demonstrate or perform a set of skills.

Test (assessment) - Wikipedia

A language is a structured system of communication used by humans, based on speech and gesture (spoken language), sign, or often writing.The structure of language is its grammar and the free components are its vocabulary.Many languages, including the most widely-spoken ones, have writing systems that enable sounds or signs to be recorded for later reactivation.
