Corporate finance has an internal consistencythat flows from its choice of maximizing firm value as the only objective function and its dependence on a few bedrock principles: Risk has to be rewarded, cash flows matter more than accounting income, markets are not easily fooled, and every decision a firm makes has an effect on its value.2.

Introduction to Corporate Finance

THE PRINCIPLES OF CORPORATE FINANCE CHAPTER 1: The time value of money We are going to link the present and the future by using the notion of interest rate that could be called discount rate, required rate of return or cost of capital. Finance is all about cash flows but more precisely about the exact date of the realization of the cash flow.
