The best natural source for deep purple and blue colors is anthocyanin. Grapes, blueberries, and cranberries owe their rich color to this organic compound. Unlike beta-carotene, anthocyanins—which form a class of similar compounds rather than a single chemical compound—are soluble in water, so they can be used to color water-based products.

Overview. Chronic kidney disease (CKD), defined by at least 3 months of impaired kidney function or albuminuria, has been shown in multiple studies to be associated with an increased risk of cardiovascular disease (CVD). 1 While CKD is often the result of hypertension and diabetes, both impaired kidney function and albuminuria are CVD risk factors independent of the presence of hypertension ...
